

Acoustic Louvre Range

Product Data Sheet

General Description

The AVS range are fabricated acoustic louvres available in panel format designed for commercial projects.

Technical Details

Materials

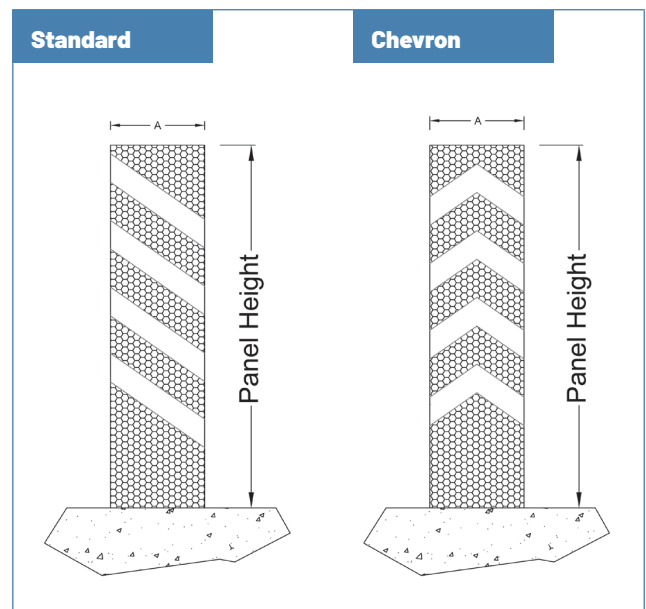

- Frame and blades - 1.5 mm galvanised sheet
- Acoustic medium-tissue faced 45 kg/m² non-toxic mineral wool (packed to +10% compression to eliminate voids)
- Perforated galvanised sheet to rear of blades

Dimension A	Louvre Type	Approx kgm ²
150 A	Standard	30
275 A	Standard	45
300 A	Standard	50
300 A	Chevron	50
550 A	Chevron	90

SRL Test Date	Description in Brief	Rw (C;Ctr)
20/03/13	AVS 150 Standard	10 (0;-1)
26/09/12	AVS 275 Standard	14 (-1;-4)
20/03/13	AVS 300 Standard	17 (-1;-3)
20/03/13	AVS 550 Chevron	16 (-1;-4)
26/09/12	AVS 550 Chevron	21 (-2;-6)

Options

- Perimeter flashing's to suit application
- Metal or aluminium birdguard
- HDPE insect screen
- Blanking Plate as required
- Flanged or glazing outer frame

Louvre designs have been tested at the Sound Research Laboratory, Suffolk, to Determine the Airbourne Sound Transmission in accordance with BS EN ISO 10140-2:2010
